## Vision

Attainment of a vibrant and an equal opportunity humane social order wherein communities irrespective of caste, creed, color and gender, enjoy highest level of human dignity and universal brotherhood.

## Mission

Continuous strive towards enhancement in quality of life particularly of women, adolescent girls and children from marginalized and vulnerable sections of the society, nurturing and empowering them for fullest growth in health and mind.

## Goal & Objective

Social Integration and Bonding Enhancement among different disadvantaged communities.

- Health Improvement with special focus on hygienic awareness among rural mothers and adolescent girls.
- Women Social Empowerment through skill up gradation & income generation avenues.
- Children Social Integration through Education and

# Health Awareness

We maintain a health home in Gosaba area of Sunderban.  
The main objectives of this Health Home are:

- To identify the health needs of the vulnerable children
- To select a set of data that reflects the health promotion needs and priorities of the target communities
- To determine who are the key individuals, groups, and organization with the power to affect health in the community
- To identify the referral network for referring the children during emergency and beyond the capacity of the existing health centres

We provide medical and health care services for the beneficiaries. Allopathic and Homeopathy doctors visit the health centres regularly and provide free treatment.

We organize camps to raise awareness on environmental hazards, health and personal hygiene for the people.

Providing free medicines and diet to the children

# Nourishment Programme

**MACHRD** has initiated Nourishment Programme aims to improve standard of health of the students who attend the various educational centres in Sunderban area. **MACHRD** distribute enough dry food to these beneficiaries to remove malnutrition and help them to receive proper and quality education.

# Education Awareness and centers

We organize lectures and workshops on removal of illiteracy and improvement of educational standard and technical education. We propagate so that people send their drop out children to school again and refrain from child labour. There are 16 Schooling Reinforcement Centres in 16 villages in Sunderban, South Twenty Parganas district and 5 Educational Centres in 5 villages in Murshidabad District. There are 1552 student beneficiaries and 550 student beneficiaries in Sunderban and Murshidabad villages respectively. These Schooling Reinforcement Centres provide government primary school students an opportunity to undergo focused education for each class (class I to class III) 6 days a week.

## Our main objective is

- To improve the students' school attendance
- To improve the students age-appropriate learning level
- To reduce drop out instances in school
- To provide the beneficiaries with knowledge and skills that make them better citizens
- To facilitate all round development through proper education so that they can be good citizens of the country in future
- To provide Training to the teachers for quality education
- To prevent child labour and child trafficking

# Future programme

We are preparing the following project proposals for the financial support from the donors.

- Project proposal for setting up a scientific laboratory, which include section of the scientific research on genetics and anthropology.
- Setting up and running of a medical centre- cum-hospital for the Scheduled Castes, Scheduled Tribes and other disadvantaged people.
- Opening of health camps at the block level in West Bengal that will provide medical facilities to the people. Initially will start it in the districts of South 24 Parganas and in the remote areas of Md. Bazar Block in the district of Birbhum.
- Setting up a Old Age Home for the poor old men and women who lacks home care facilities from their family members on account of their disadvantaged situation and poor financial condition.
- Set up a residential school for the children of the Scheduled Castes, Scheduled Tribes, Other Backward Class, Minorities and other disadvantaged especially poverty stricken people.
